

Erich Lorman

Slovak Republic | Information Technology and Services

J2EE Developer

Key Skills

JSF, CDI, REST, JPA, Maven, Wildfly
Microservices, DDD
GIT, Jenkins, Teamcity, JIRA, Mattermost

J2EE Related Projects

Scheidt & Bachmann, SK (08/2014 – present), Employee, Key J2EE Developer

Design, technical study and implementation of cloud solution for fueling point services and point of sales
Various minor projects & prove of concepts

Technical description:

CDI, REST(RestEasy), JPA2(Hibernate), EJB3 (various tasks missing in CDI)
Multi-module 3-tier application implementing micro-service pattern, DDD compliant code
Testing - Arquillian, Junit
Build & deploy – Maven, Jenkins, Wildfly
Various – GIT, ADOC, PUML, JIRA, Mattermost

OMTIS, SK (05/2013 – 05/2014), Founder, Architect / J2EE Developer

Design & Implementation of web searching engine for automotive parts

Technical overview:

Selenium driven parallel searching (17 shops)
Client part – Swing client invoked by web-start, communicating with server via SOAP
Server part – JSF, Spring, Hibernate, Maven on Tomcat

VÚB Banka, SK (07/2012 – 11/2013), Contractor, Business process modeler / Modeling tool developer

Modelling use cases in FSPL modeler above Metarepository (permission management, marketing campaigns)
FSPL modelling tool development – table modeler, git communication overviews

Interesting features:

Business process modeling
No-sql approach (Metarepository, GIT)

Direct Pojišťovna, CZ (05/2010 – 06/2012), Contractor, Key J2EE Developer / Business logic architect

Project delivered solution for further development and maintenance of insurance company's web portal. Main task was to rewrite and keep architecture up to newest possible technologies.
Application has been awarded as best financial web application in Czech Republic for 2011 (WebTop100).
Application is currently performing war overlay for customers as Tesco, Cetelem and Ikea.

Responsibilities included:

Application business logic implementation
Implementation of newest possible technologies
Application frontend development
Application support and bug fix

UPC Czech Republic, CZ (12/2009 - 05/2010), Contractor, Project Manager

Migration of customer management system from UPC Czech Republic to UPC in Netherlands.

Responsibilities included:

Team coordination between Prague and Amsterdam
Analysis of migration including Oracle and Solaris setup + infrastructure setup
Minor development PL/SQL, J2SE (Swing)

NESS, CZ (09/2009 - 12/2009), Contractor, J2EE developer

ISKR Project - short-term helping role

Responsibilities included:

Application frontend development

Application support and bug fix

ČSOB, CZ (08/2008 – 05/2009), Contractor, J2EE Developer

Implementation of modules for ČSOB internet banking, reuse of modules delivered from other teams

Responsibilities included:

Application business logic implementation

Application frontend development

Application support and bug fix

T-Mobile, CZ (08/2007 - 03/2008), Contractor, Business Analyst

Project focused on turning PL/SQL implementation of T-Mobile.cz portal to Java

Responsibilities included:

Syntheses of customer self-service zone previously written in PL/SQL

Analysis and unification in order to prepare business logic layer

UML Description, technical documentation

On Semiconductors, CZ (02/2007 - 08/2007), Contractor, Java Developer

Application was designed to monitor preparation process of silicium waffers

Responsibilities included:

Application frontend development

Application support and bug fix

IT Experience overview

J2EE Developer

2007 – Present

Present architecture proposal

JSF 2 (PrimeFaces)

CDI 1.2 (all basic J2EE functionalities)

EJB (parts not covered by CDI)

REST (JSON, RestEasy)

JPA2 (Hibernate)

Maven (various techniques – overlay, flyway, deployment, site generation, result upload, etc ...)

Wildfly 8.2+

GIT, Jenkins, TeamCity

Various technologies

JSF 1.2 (Mojarra+A4J, MyFaces, RichFaces)

Spring (Container, Acegi + Spring security, WebFlow2)

Swing, JSP, Servlets

JAAS, JWT, JCA (Wildfly)

various proprietary frameworks (Sygel WM Generator, RAD, FSPL)

various application servers – minor skills (Websphere, BEA, Glassfish, Tomcat)

System maintenance / minor development / various

2002 – 2006

Princess Cruises, GCCL cruises, Uniworld cruise line

Win / Debian admin

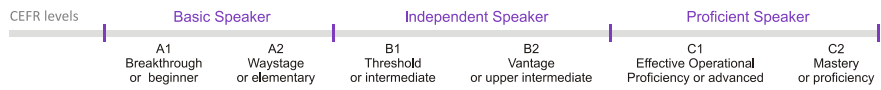

C# + VB back-office application development

Education

FEI STU Bratislava, SK, Computer science

1998 – 2000

Languages

English: C1

German: A1

Trainings & Certificates

J2EE 7, 2016, itExperts, Zilina

J2EE 7, 2015, Adam Bien, Munich

Spring for J2EE, Gopas, CZ

Design patterns, Rene Stein, CZ

ADF, Oracle, CZ

Cambridge 1st certificate, SK

Tools and techniques

IntelliJ Idea

Maven

SVN / GIT

SoapUI, Membrane monitor

Debian + Solaris knowledge

Enterprise architect

Basics of SQL/ PLSQL
